Software Programmer

DTP Education Solutions

DTP Education Solutions JSC is an education group in Vietnam that provides efficient total education solutions and English coursebooks from world-class educational organizations. These include print books and digital solutions that cater to learners of all ages, from pre-school to university, and different levels from beginner to advanced. They also offer reference materials, English test builders, specialized coursebooks with supporting applications, online self-study courses, e-learning, learning methods, and other learning software.

Mar 2022 – Now

Working with Project i-Test (TestBank):

- **Description:** i-Test is an online test management platform built to assist teachers in creating and managing online exam questions with ease. Additionally, it enables teachers to efficiently control and track scores while monitoring student learning outcomes.
 - **Technologies:** Next.js, TypeScript, React Suite, NextAuth, Sass, MySQL, GitLab, SourceTree
 - **Team size:** 5 members (developers).
 - **Responsibilities:**
 - Implements UI for the question input, the web version of the exam, and the mobile student's exam game.
 - Manage users and permissions, and decentralize authority between management, admin, and teacher roles.
 - Manage data entry database, store question sets, exam questions, save scores, and student information after taking the test
 - Use Jira to manage tasks.
-
